

Now statistics.com online courses are available at Special Prices in Indian Rupees!!

Statistics.com offers over 70 courses in introductory and advanced statistics, taught by leading experts. Convenient schedules allow for instructor-student interaction via a private discussion board, without requiring that you be online at any particular times during the week. Teaching assistants provide regular feedback on practical exercises, and statistics.com offers continuing education credit, course completion certificates, and program certificates.

The instructors at statistics.com are world-recognized authorities, often the authors of standard textbooks in their field. Only statistics.com offers the opportunity to be in direct contact with these experts for weeks at a time.

Statistics.com offers its courses in India at special prices in Indian Rupees through its partner, the Center for eLearning and Training (C-eLT) in Pune. C-eLT is an eLearning company that provides high quality online eTutoring service in 24 x 7 formats in a suite of undergraduate/graduate subjects, teaching assistant services for online courses, subject matter expertise inputs in content development and consultancy services to domain specific organizations. C-eLT provides both administrative and instructional services to statistics.com.
