The Center for eLearning and Training (C-eLT) is a division of TechKnit IT Enabled Services Pvt.Ltd. It has been established by promoters of Cytel Inc. in Cambridge MA, USA, which is renowned the world over for designing and marketing specialized statistical software products and delivers customized statistical solutions. The Promoters have strong research and academic ties with premier institutions like Harvard University and Massachusetts Institute of Technology (MIT).

Currently, we offer human eTutoring support in Statistics, Mathematics, Chemistry, Physics, Biology and English at undergraduate level. In the near future, we plan to extend support to other subject areas like Accounting and Finance as well.

Apart from providing a full range of Teaching Assistant (TA) services for on-line courses in statistics on [www.statistics.com](http://www.statistics.com), we also offer consultancy in applied statistics for research papers and projects. We extend eTutoring support for Quantitative Techniques and Accounting / Finance Courses for MBA programmes for Maastricht School of Management and Analytical Services for postgraduate students and professionals.

We have launched an initiative in providing Subject Matter Expertise (SME) services for Authoring, Coding and Review of Questions in Mathematics, Statistics and Science subjects at undergraduate level for Content Developers / Publishers in USA.

C-eLT now offers on-line courses from [statistics.com](http://statistics.com), the leading provider of professional development courses in statistics to Indian Residents.

Visit: [www.india.statistics.com](http://www.india.statistics.com)

C-eLT's center is located at Pune, India and provides IT Enabled Services predominantly to clients in USA. The core competency of C-eLT lies in providing high quality personalized on-line and off-line tutoring, SME Services, Consultancy in Applied Statistics as well as TA support to American Professors in the education domain.

## The C-eLT advantage

“High Caliber Personalized Tutoring  
Scalable e-learning Solutions”

C-eLT's eTutoring services are dedicated to the K-12, College, Remedial, and Test Prep Markets apart from offerings for on-line courses. C-eLT also offers focused consultancy services in Research Projects entailing use of Applied Statistics.

C-eLT offers Subject Matter Expertise (SME) services to Content Developers and Publishers.

C-eLT has launched eTutoring support for Quantitative Techniques and Accounting / Finance Courses for MBA programmes and Analytical Services for post graduate students and professionals.

On the anvil are plans for offering Excel based 'Business Decision Support Service' for working professionals.
